

Getting Started

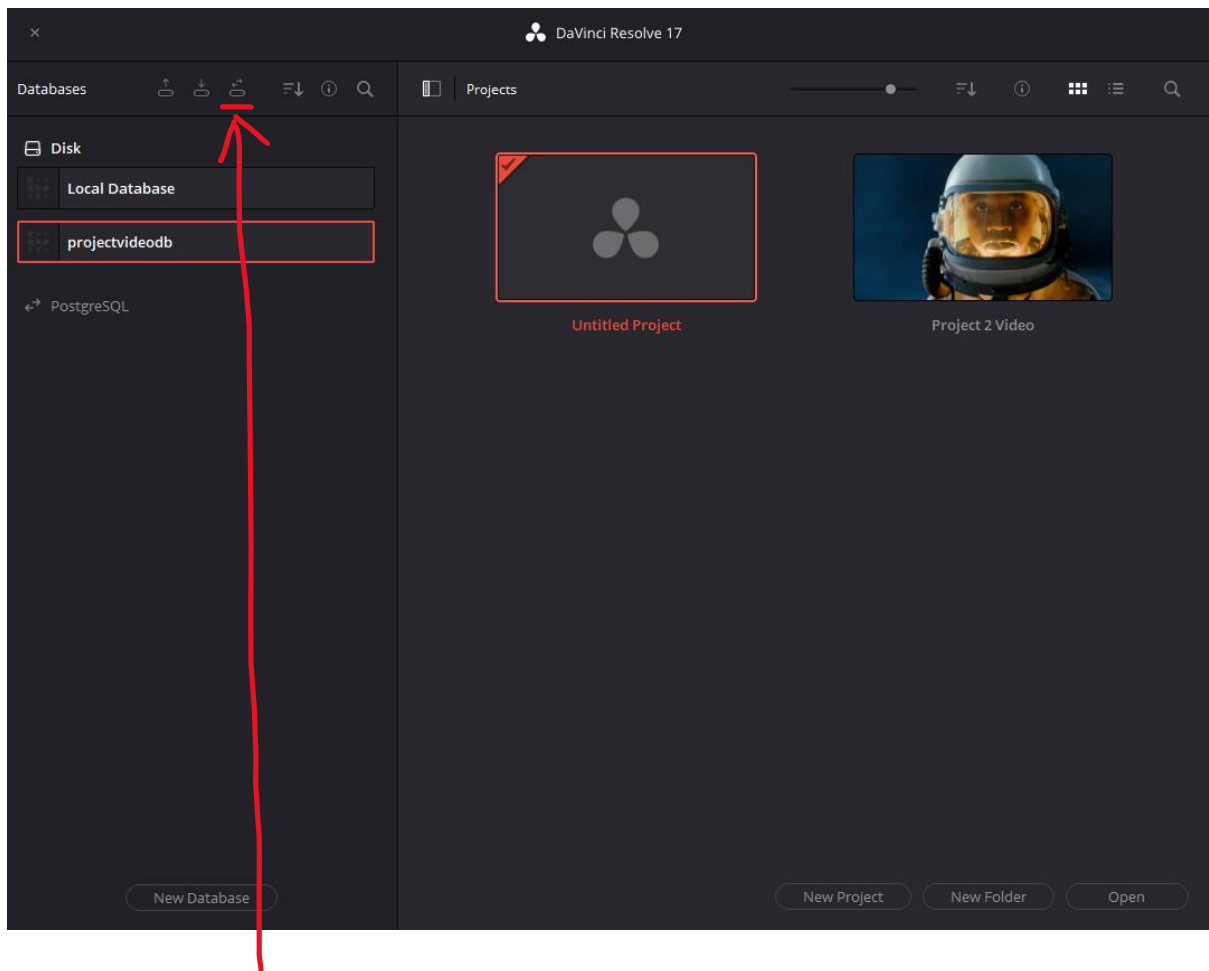

The **Resolve Project** is in the **Trailer** folder in the **Repository**.

Download Davinci Resolve 17 from [DaVinci Resolve 17 | Blackmagic Design](#)

Set **Media folder** to the **Trailer folder**

Open **Home** page

Click on **Connect Database**

Set the name as "**projectvideodb**", set location as the "**Resolve Disk Database**" in the **Trailer** folder

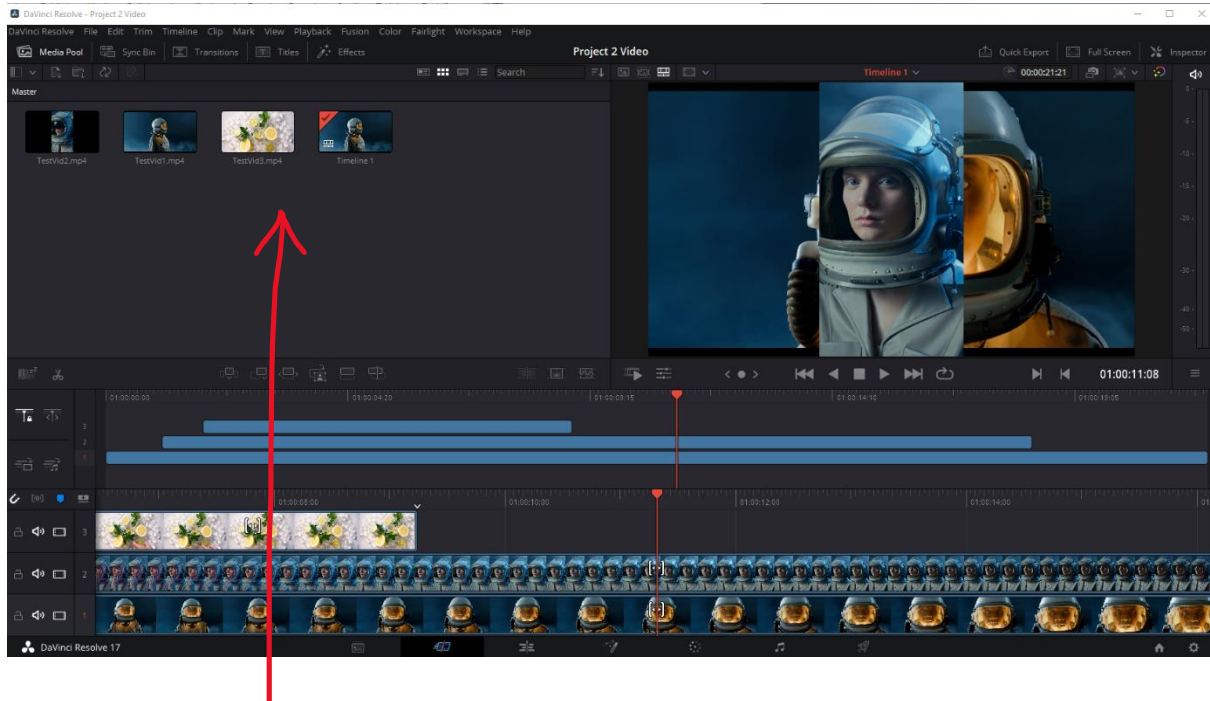

Opening Project

The Video Project is titled **Project 2 Video**

Double click to open

Relinking Media Folder

Every time you see **red video tiles** and the phrase "**Media Offline**", you will need to **relink media**

Right click the **Media Pool**

Click **Relink Clips for Bins**

Select **Media Dropoff folder**

Note: You may have to redo these steps every time a **new clip is shared to the pool**.
